

Background of the Invention

Chair covers are used on many types of chairs to hide unsightly used chairs or to provide a decorative look on folding chairs or other type of rental chairs.

This decorative look is used for banquets, weddings all types of parties and special events. The covers usually droop loosely over the chair.

The object of disposable chair covers is to make it easy for the consumer. When finished with the disposable chair cover you just throw it away.

Description of Drawings

Both A and B covers fits loosely over the chair. The tie will make it contour to the type of chair you use.
